R. D. Clements & Co.
VanCulin Bros.
Palmer House

FRIDAY, JULY 5, 1901.

A DAILY THOUGHT.

"Nothing else is so contagious as enthusiasm."

Fulton having been unable to take in the Paducah shops, has decided that she will be satisfied with the Jackson, Tenn., shops. Well, here's hoping she will not be disappointed again.

The gutters should be kept clean. Judge Sanders struck the keynote in his decision Wednesday. The people should take a little interest in the health of their neighbor and of the people at large.

Korea has notified Japan that the latter must close its Korean post office. So far Japan has paid no attention to the demand, which has served to greatly increase the tension between the two countries.

Mr. Bryan seems to have utilized some of the hot air that has been in abundance for the past several days. He is out in another interview saying that he would rather die fighting for right than win fighting for something else.

Sam Jones was after the Elks a short time ago, and now Mrs. Nation has emerged from temporary obscurity long enough to announce that "she will save them if she can." If Sam Jones and Mrs. Nation get to heaven there will probably not be room for any one else.

Paducah creditably entertained the Louisville board of trade, and has been greatly benefited by it. The Louisville papers all spoke in the highest terms of the reception accorded the visitors, and were most generous in their exploitation of the many advantages offered by Paducah. The visit did much good, and will do much to bring about closer business relations between the two cities, and in fact between all cities of the state.

The people in New York do not know what hot is. The official temperature on Tuesday, said to have been the hottest day in its history, was only 99. Ambulance service was suspended on account of the condition of horses, and the public parks were thrown open for the relief of sufferers. It is claimed that the people east have to wear heavier clothing than those south on account of the cool nights, and it renders them more susceptible to heat than people in this part of the country would not seriously mind. It goes to 102 and 103 here sometimes and business keeps on just the same.

A queer town is Shumway, Shelby county, Ill. It is so small that only one saloon can thrive, and for this the proprietor pays \$700 a year license. Nearly all of this goes for sidewalks, and although it is a town of only 250 people, there are already over two miles of sidewalks. The mayor and aldermen receive no salary. The town has no police except the aldermen, each of whom is a policeman, and the saloon keeper also has police powers. The city clerk receives \$1 a year, and he is the only officer who draws a salary. When there is any disturbance the whole town turns out to assist in the arrest. When the fine is imposed the money goes to build more sidewalks.

Bad news for Mr. Bryan and his followers. The populists have decided to go it alone next time. Senator Butler, chairman of the National Populist committee, said in an interview:

"The main issue will be public ownership—not of everything, understand, but of the natural monopolies. We are not Socialists. The Populist believes in competition. Let the public own the natural monopolies, and then let the rest of it be every man for himself and the devil take the hindmost. All we ask is that there be equality of opportunity."

"The silver question is dead, for the time being, at least, and for one I never favored the use of that word silver. All the true Populist contends for is money enough to transact business and maintain the equilibrium of prices. I believe that coinage and the supply of money should be regulated by law."

Mr. John Tappin, of O., says: "POLEY'S HONEY AND TAR cured my little girl of a severe cough and inflamed tonsils." J. C. Gilbert.

TO SUE.

MRS. OAKES TO INSTITUTE PROCEEDINGS AT METROPO.
LIS, ILL.

Mrs. W. E. Oakes, widow of the late Marshal "Damp" Oakes, who died at Metropolis from wounds inflicted by Dr. A. H. Covington, who was killed in the fight, has employed Attorney S. Bartlett Kerr to bring suit for damages against the bondsmen of the late saloon keeper for killing her husband.

An interesting question will be raised by the suit. A few days before his death Dr. Covington offered his bond, which the council failed to approve, permitting him to keep open his saloon only on condition that he give a better bond. The result was his saloon was being run without a bond at the time of the tragedy.

AN ECHO.

THE HERO OF THE CITY OF PADUCAH MUST DO TIME.

As an echo of the City of Paducah disaster near Grand Tower, Ill., on May 12 comes the conviction of John Wilson, at Springfield, Ill., of looting the steamer after it was wrecked. Wilson saved several lives but was found in St. Louis with a satchel full of jewelry, etc., which he claimed to have found on the bank.

Jerry Woods, Lewis Beer, Arthur Hickey, Daniel Godard and William Cruse are also under indictment on the same charge and their separate trials will follow.

Sentence has not yet been passed on the prisoner.

MISSING WIFE.

DR. MOFFIT ASKS ST. LOUIS POLICE TO AID HIM.

Dr. A. J. Moffit, who has an office at No. 1 North Broadway, yesterday requested the aid of the police in locating his wife, Bertha Moffit, who disappeared from their home, No. 2649 Lucas avenue, yesterday morning, says the St. Louis Republic.

Dr. Moffit said he left home for his office at 8 o'clock. When he returned for luncheon he found his wife and all her belongings and his clothing gone. Dr. Moffit was surgeon for the First Kentucky Volunteers. He said he married his wife in Paducah, Ky., four years ago. He said they had no quarrel and he cannot understand her abrupt departure.

She was formerly a Miss Duperron.

NOW IN CHARGE.

U. S. DEPUTY MARSHAL LA RUE BACK IN HIS FORMER OFFICE.

Mr. M. W. La Rue, lately transferred from United States deputy marshal, arrived in the city night before last to assume his duties in this district. His first official duties since his transfer to this district was the serving of summons, petitions, etc., in the involuntary bankrupt case of the firm of Stoval & Brand and its assignee, of Mayfield, Ky. The papers were served Wednesday night. Mr. La Rue returned home from that city last night. He says he is very glad to get back and his many friends are glad to see him transferred to this city again.

He left today for Louisville and goes from there to North Carolina and Virginia to visit his mother and other relatives. He will be absent about eight days.

ASSISTANT HERE.

MR. MICHEL, OF THE Y. M. C. A., HERE TO HELP IN THE CANVAS.

Assistant State Secretary of Y. M. C. A., F. J. Michel, arrived in the city this morning from Louisville and will with Secretary Escott immediately start a canvas of the city. An unusual effort will be made to close this year of the association with all the financial obligations fully met and from present indications the efforts will not be futile. The canvassing was commenced this morning and had progressed very well this morning.

ALL BACK OUT.

There will be no teachers to go to the National Educational Association at Detroit from this city except Miss Alah Brazelton. A list of the names of many who had agreed to go was published some time ago but the majority have backed out. Miss Brazelton will attend and if any others go it will be only to pass through enroute to the Buffalo Exposition.

\$100 REWARD.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENNEY & CO., Toledo, O. Sold by druggists. Beware of Hall's family Pills are the best.

ANNUAL MEET.

The Christian Endeavor Society to Hold Its Convention at Covington, Beginning Tomorrow.

Saturday the Twentieth Christian Endeavor convention begins in Cincinnati. Preparations have been made for 25,000 delegates and many visitors. The meetings will be held in Music Hall and the two exposition buildings adjoining it. Odeon Hall, in the same square, will be used for conferences and section meetings.

Saturday evening the welcoming addresses will be delivered by Gov. Nash and local representatives. President Francis E. Clark will deliver his annual address and Secretary John W. Baer will present his annual report. The only Sunday services of the convention will be in the afternoon—the morning and evening being occupied with the regular church services in the city, visiting ministers, preaching in all of the churches. Monday and Tuesday and Wednesday sessions will be held morning, afternoon and evening in the three auditoriums.

The music of the conventions will be one of the special features, a chorus of 1,200 voices having been drilled for many weeks.

In addition to the programs for the three large halls, where seating accommodations will be arranged for 13,000 people, there will be daily meetings at 8 a. m. in three of the largest churches in the city. At noon there will also be evangelical services held in the market places, factories, shops and public buildings, so that the entire day from 8 a. m. until 10 o'clock at night will be crowded with meetings and visitors will pick those meetings in which they are most interested.

Saturday, July 6, the State Christian Endeavor convention will take place in Covington, Ky., and a large crowd from all over the state is expected. There are four hundred and fifty societies in the state and a large representation is anticipated.

The program is as follows: Mr. John P. Hillis, director of music, Greencastle, Ind.

9:30—Song service.

9:40—Devotional exercises, by the Rev. B. Wrenn Webb, Mayfield, Ky.

9:50—Report of president, "Needs and Possibilities of Kentucky Endeavor Work," the Rev. Warren S.

10:00—Singing.

10:10—Report of nominating and finance committees; song and benediction; social greetings.

At the same time the national convention, which meets from the 5th to the 9th will be in session across the river in Cincinnati. Thus the members will be enabled to attend both meetings.

The Illinois Central to Golconda, and from there up the river to the spar mines at Rosa Clara. The engineers are already on the ground and work will begin shortly to progress rapidly.

Seven carloads of telegraph posts were taken along the Illinois Central between here and Princeton this morning. The Illinois Central is putting up new posts between here and that place and will have the job completed within the next two weeks. The whole Louisville division will be improved with new posts where they are needed.

Mr. R. Boswell, of Princeton, has been substituted in the place of operator Staton, resigned, of the train dispatcher's office temporarily. No permanent appointment has been made as Mr. Staton's resignation has not yet been accepted. After a vacation of about one month Mr. Staton will go on another road or will be transferred to another division of the Illinois Central if he does not stay in this city.

Ticket Agent C. G. Sheppard, of the local Illinois Central depot, is off duty today. He had a very bad case of vaccination and could hardly see his left arm. Mr. O. R. Tonsley, the former night man, has been substituted. Mr. Sheppard will probably be well enough to resume his duties by Monday.

The Illinois Central shops here were unusually quiet yesterday. All the employees were given a holiday and were celebrating. The big department presents the usual appearance this morning and the noise is just as deafening as before the glorious Fourth.

The engine damaged in the Kutta wreck several weeks ago is about ready to test. She now looks like a new engine and is shining brightly in a new coat of paint.

Watchman and Railroad Policeman T. P. Ogden, of the Illinois Central shops here, has recovered after an illness and is again on duty.

MARRIED IN TENNESSEE.

Mr. E. E. Riley and Miss Rosita Borders, of Mayfield, Ky., eloped to Union City, Tenn., and were married yesterday. The ceremony was performed in the waiting room of the M. and O. railroad.

James G. Amherst, of Della, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of BANNER SALVE it began to heal and after three applications it was entirely healed leaving no scar." J. C. Gilbert.

DEATH OF A CHILD.

Annie May, the five months old daughter of Mr. and Mrs. Albert Senger, died yesterday at the family residence, 819 South Sixth street. The funeral took place this afternoon at 4 o'clock from the St. Francis De Sales church. Burial at Oak Grove.

The Sun only 10¢ a week.

PADUCAH INVENTION.

A SHOOTING GALLERY THAT IS WORKED BY ONE MAN.

Mr. Sam Foreman, the well known inventor and manufacturer of novelties, has completed his automatic shooting gallery and had it on exhibition at one of the Griddy buildings on lower Broadway. It is perhaps the most complete and the best shooting gallery on the market and is well worth the going to see even to a person not interested in shooting galleries. The operator has a pedal that works a string and the gallery can be worked without the least trouble by one man. It is his best invention and reflects much credit on his ability as an inventor.

THE WEEK'S TOBACCO.

Prices on the brakes Wednesday were satisfactory. Lugs ranged from \$4.50 to \$5.25; low leaf from \$3.50 to \$4.50; common to medium leaf, \$6.50 to \$8.00. At the Western district warehouse 79 hogheads were offered and 15 rejected. At Farmer & Graham's there were 55 sold and two rejected.

The greatest healer of modern times is BANNER SALVE for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute. J. C. Gilbert.

STRIKE SETTLED.

Information has been received by local parties interested that the strike of 300 miners of the Tradewater Coal company near Sturgis, has been settled and the miners will return to work tomorrow.

Any advertiser is authorized to guarantee BANNER SALVE for better, eczema, piles, sprains, scalds, burns, sores and any open or old sores. J. C. Gilbert.

A WOMAN PARDONED.

Daisy Sullivan, pardoned up from Paducah for five years for robbery, has been pardoned by Gov. Beckham. She is said to have consumed and has returned to her home here.

Science has found that theumatism is caused by uric acid in the blood. This poison should be expelled by the kidneys. POLEY'S KIDNEY CURE always makes them well. J. C. Gilbert.

A BIG CAVE.

Sparta, Ill., July 5.—The Modern Mammoth Cave, of which we hear so much about from Red Bud, is expanding. Last week a party of men explored it for a distance of ten miles and the end is not yet. They promise to increase their supplies and make a more extended investigation. It is possible they may find a route for an underground railroad to St. Louis.

Thos. W. Carter of Ashboro, N. C., had kidney trouble and one bottle of POLEY'S KIDNEY CURE effected a perfect cure and he says there is no remedy that will compare with it. J. C. Gilbert.

INSPECTOR HESSIG'S WORK.

Dr. Hessig, milk and meat inspector, is having no trouble in the performance of his duties. Only 32 head of cattle have had to be quarantined on account of being "ticky," and these were straightway slaughtered. No stock has been found to have tuberculosis.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with POLEY'S KIDNEY CURE. "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used every thing known to the profession without relief, until I was induced to use POLEY'S KIDNEY CURE. After using three bottles I was entirely relieved and cured. I present it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success." J. C. Gilbert.

PETITION IN BANKRUPTCY.

Mr. Guy Nance, the well known night policeman, filed a petition in bankruptcy this morning, giving liabilities to the amount of \$228.50.

TO ALL PERSONS HAVING FARMING, TIMBERED, OR MINERAL LANDS, OR WATER POWERS FOR SALE.

The Nashville, Chattanooga St. Louis Railway proposes to use its best efforts to induce a good class of immigrants to settle in territory contiguous to its lines and to engage the attention of capitalists seeking manufacturing sites or mining property. It therefore solicits the support, the cooperation and the assistance of the people of every county through which its lines pass. The management earnestly requests that all persons who have farms for sale or lease, those who have timbered lands, water powers or mineral lands for sale, will send a brief description of the same to the railroad agent nearest them, giving the prices and terms of sale. The prices must correspond with the prices asked of local buyers. The management does not propose to bid in selling land to immigrants at exorbitant or speculative prices.

J. E. KILLEBREW, Industrial and Immigration Agent. H. F. SMITH, Traffic Manager, Nashville, Tenn.

31a

"It would give a genuine and religious Turk a fit if he saw how little appreciation Americans show for the rose and what little reverence they have for it," spoke a florist as he wrapped the foil about the stems of a bouquet.

"The rose is beyond question the prettiest flower that blooms, and it was so considered by the Turks many years before the conquest of Granada. There is a religious legend generally believed in throughout Turkey that the red rose sprang from a drop of the great prophet's Mohammed's blood. Everything beautiful in nature is ascribed to him. The Turks, therefore, have great reverence for the flower and allow it to bloom and die untouched, except on state occasions and for the purpose of making rosewater.

"After the conquest by the Turks they would not worship in any church until the walls were cleansed and washed with rosewater, thus purifying the blood of the prophet. It is used on the body for the same purpose. A Turk whose conscience is stung by some act or deed he has committed will confess and pay reverence to the rose to appease the wrath of the prophet and Allah.

"With these ideas inculcated in him from youth it would shock him severely to see the pretty flower strewn in the path of a bride couple, thrown on the public stage or lanked up in bunches at a social reception or party to be crushed and spoiled in an evening."

Sensible Conclusion.

Two doctors once had a disagreement—as the best of doctors sometimes will have—and lost their tempers. "I hesitate to say just what I think of you," angrily exclaimed one of the two, "for you have not many years to live! Consumption has marked you for a victim."

"Oh, it has, has it? How do you know?"

"By the 'clubbing' of your fingers," referring to the wasting away of the fingers near where they join the hands. "Do I need to call your attention to that?"

"Perhaps not," retorted the other. "But do you know you bear the unmistakable indication of an early death yourself?"

"Where, sir?"

"In the hollows at the back of your neck near the head, where you can't see them. They denote a fatal lack of vitality."

"In that case," rejoined the one who had spoken first, extending his hand, "we are foolish to quarrel. Let us prescribe for each other."

They are still alive and apparently in excellent health.—Youth's Companion.

Awaken in Big Lots.

"To supply the need of the big modern buildings with awnings," said an awning maker, "costs as much as it would to build a moderate sized house. Not all of the great buildings require awnings. Some of the very largest have their principal exposure in such a direction that they are not needed, the sun not shining on these windows during the hours the offices are occupied. And then, of course, there are great buildings that do not require awnings on some sides, but need them on others or in courts, and so on.

"Here, for instance, is a building with about 1,000 windows, of which 900 or thereabout are supplied with awnings. In fact, you would find in the city almost 1,500 windows. I don't know how many awnings they have there, but if it is supplied in the same proportion as the other that would give it about 1,000 awnings. I dare say that, in fact, you would find in the city single buildings with more than a thousand awnings.

"You see, just the awnings for some of these great modern buildings amount to quite an item."—New York Sun.

Utilizing the Ad.

"Now, if you will show me where the burglars got into your shop," said the detective, "I will see if I can find a clue."

"In a moment," said the proprietor. "I am working at something a little more important than hunting for a clue just now."

And while the detective waited the merchant wrote as follows at his desk: "The burglar who broke into Katzman's shop on the night of the 12th and carried away a silk hat, a pair of French calfskin boots, a fur trimmed overcoat, a black broadcloth suit and two suits of silk underwear was a black hearted villain and scoundrel, but a man whose judgment cannot be called into question. He knew where to go when he wanted the finest clothing the market afforded."

"Jacob," he said to the bookkeeper, "send a copy of this to all the papers and tell them I want it printed in big black type, to occupy half a column, tomorrow morning. Now, Mr. Hawkshaw, I am at your service."—London Answers.

Thrill in Children.

A savings bank account is a great incentive to thrift in children. If one is begun for the baby, even with a very small sum, and added through childhood and youth with a certain proportion of the money that otherwise would be spent carelessly and thoughtlessly by the child, there will be a very respectable amount on the credit side of the ledger when the depositor is 18 years old. The habit of self-denial is not the least of the substantial benefits that follow a wise economy of money.—Exchange.

Pardonable Curiosity.

"I have met," remarked the old man, "but two sensible women in my life."

"The innocent maid gazed into his face and asked, 'Who was the other woman?'"—Chicago News.

Burr's Self Control.

Aaron Burr was by nature and training a man of extraordinary self control. He allowed no circumstances to throw him off his balance. An anecdote told by Rufus Choate to the late Richard H. Dana, recorded in Mr. Dana's "Diary," illustrates the callousness which aided Burr so greatly in controlling himself. Several years after the death of Hamilton, killed by Burr in a duel, Burr visited Boston, and Mr. Devereux of Salem paid him some attentions. The visitor was taken to the Boston Athenaeum, where, while the two men were walking through the gallery of sculpture, Mr. Devereux happened to catch sight of a bust of Hamilton.

"The thought flashed across his mind that Burr might not care to be confronted with the sight of the features of the man he had slain. But no. Burr was undisturbed. He also espied the bust, and, although Mr. Devereux had instinctively turned away, he walked up to it and said in a loud tone: 'Ah! Here is Hamilton!' Then, passing his fingers along certain lines of the face, he added, 'There was the poetry!'"

Hamilton's contemporaries gave him credit for possessing a poetic mind.

Fresh Seasonable Groceries. THEY ARE MY LEADERS.

Fresh vegetables and fruits and fine canned goods always in stock. Also meats. All the season affords.

Let us save you a trip to market these warm days.

M. H. GALLAGHER,
Phone 430. 9th and Trimble.

Telephone 113. Corner 10th and Trimble.

Well Babies Are Good Babies.

MOST LITTLE BABIES DIE either from bowel troubles or from diseases which they contract because they are in a weak and feeble condition from bowel troubles.

Mothers who are seeking the ideal and proper medicine for their little ones for constipation, diarrhea, colic and other ailments will find LAXAKOLA the great family remedy.

It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gives rise to colic or flatulence. BEST because it is pure and never fails. BEST because "Children like it and mothers love it."

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—give them LAXAKOLA.

A few drops can be given with safety to very young babies, and will often relieve colic by expelling the gas that causes it, and it also will check simple fever, break up colds and clear the bowels.

Greatest relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green evacuations. From the fact that LAXAKOLA neutralizes the acidities of the bowels and carries out the cause of fermentation, aids digestion, relieves constipation, assists nature and induces sleep.

LAXAKOLA FOR WOMEN. It is a gentle and safe remedy for use during all conditions of health of the mother and wherever there is constipation and delicate constitutions require a mild and efficient laxative and this, and it is so because it is so gentle and never fails.

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—give them LAXAKOLA.

At all drug stores or send for free sample to THE LAXAKOLA CO., 100 Nassau Street, N. Y., or 121 South 10th Street, Chicago.
